NUT FREE!

Due to a number of students enrolled at our Campus being severely anaphylactic to ingesting and touching Nuts, and in accordance with DEECD Policy, the P-4 Campus is a **NUT FREE** Campus. We ask parents to refrain from sending their child to school with any food containing

On Wednesday the whole P-12 College staff attended a fantastic Professional learning session on Positive Education. This day was presented by Geelong Grammar school and was all about staff and student wellbeing. The wellbeing of our students is paramount and when a child is happy and flourishing their academic ability improves. The aim of the day was to allow our staff to understand the importance of wellbeing not only for themselves but also our students. This is not a program but a philosophy and a way of living. We all have bad days but with a positive mindset and attitude we can learn to overcome those bad moments much quicker. Our aim as a college is to start living the Positive Education Philosophy straight away and we have set ourselves some goals to achieve this. We are all very excited about living the Positive Education philosophy and immersing our students in this fantastic positive way of life. It teaches everyone to approach unpleasantness in a more positive and productive way.

Is there an age limit for kids on social media?

13

Most social media services and apps require users to be 13 years old to join.

WHAT ABOUT APPS?
App stores set their own age ratings based on the app's content.

WHY 13?

This is usually to comply with the Children's Online Privacy Protection Act of 1998 (COPPA)—a US law preventing the collection and storage of personal information from a child under 13.

Last week we mentioned to our parent community that it was so important that you were aware of what your children are doing when they are using social media. Please have a look at the list below that indicates legal ages for current apps used by our young students. It is interesting to note that there are only two apps that children under 13 are legally allowed to access. Reasons why age restrictions are put on apps is that young students are not mentally or socially ready or capable of understanding the correct use of these apps and often find themselves in tricky situations.

This week we introduce Grade 3/4 E. In the 3/4 Unit, our class novel was the Demon Dentist by David Walliams. We have loved reading this book together. To present all the reading strategies that we have practised along the way, we are completing a book report. We have had to visualise a scene from a chapter and then draw and write about it. We have practised our skills of summarising the text. The telephone picture gave us the opportunity to make inferences about the characters and support them with evidence. It has been a fabulous novel and inspired some of the students to try some of his other books.
