

Sign-in to ClickView Online at Yarrawonga College P-12

Student Guide

ClickView provides thousands of quality educational videos designed for Primary and Secondary schools, which are accessible through a BYOD-friendly video platform.

With ClickView, you can embrace video learning as their suite of software enables teachers and librarians to store, manage and deliver educational videos inside and outside the classroom.

This means teachers can embed educational videos into their school's LMS, such as Google Apps For Education, while students can watch these programmes at their own pace using any computer or mobile device.

Sign-in Steps

1. Go to the ClickView Online website - online.clickview.com.au
2. At the Log-in page - enter your Yarrawonga College P-12 email address.

This is in the format of [CasesCode]@yarrawonga.vic.edu.au

Example: AND0001@yarrawonga.vic.edu.au

If using Safari as a web browser, you may need to enter the full email address from scratch (the site seems to not like autofill completion).

A screenshot of the ClickView login page. The page has a white background with a green and orange border. At the top, the ClickView logo is displayed. Below it, the text 'Enter your email address to sign in to your ClickView account' is shown. A text input field contains the email address 'PUR0010@yarrawonga.vic.edu.au'. Below the input field is an orange button labeled 'Next'.
