Workshop Program – Creating exciting opportunities for students

Year 3 students Eadie Nicholas, Maggie O'Neill and Koby Brown have created their very own small business through the Workshop Program. The girls have been busy designing and making their own bag creations and yesterday offered a 'pop up shop' open for browsing and purchases by YCP12 staff.

The girls have learnt to use a sewing machine under the guidance of Nerroille Wilson. With her support and that of Michelle and other volunteers through our Community Workshop program, the girls have made all the bags pictured and even made the overalls they are wearing. The girls demonstrated exceptional growth in their sewing skills and were very excited about their business venture idea.

After making their creations Eadie, Maggie and Koby went through the planning process to create their little sales venture, learnt about floats, pricing and marketing. All products were made from recycled materials and the proceeds of sales will go towards purchases of threads and sewing materials.

Cross age connections enjoyed across the college

Prep B had a wonderful visit from some Year 10 students as part of their Careers and Pathways class on Wednesday this week. Together the Preps and Year 10s listened to a Dr Seuss story and engaged in a craft activity that focused on fine motor skills.

We are so lucky to have such a wonderful relationship with the older students at the 9-12 Campus! Next week the Preps look forward to spending some time with their Year 4 buddies and will also get to visit the Year 6s to listen to some stories they have written.

Jump Rope for Heart - 2025 Jump Offs

To celebrate the end of our 'Jump Rope for Heart' program, Prep to Year 6 students participated in cross age skipping activities this week in their Phys Ed classes.

Junior and Senior PE classes came together to move through a variety of fun skipping challenges during their sessions on Tuesday and Thursday. The students were awarded prizes for their efforts and loved presenting their group routines to an audience.

The older students did a great job of supporting and encouraging the younger students, and the younger students have come such a long way with their skipping skills. So lovely to see the high levels of energy, skills, encouragement and fun being demonstrated!

Donations can still be made at [YCP12 Jump Rope](#) so keep fundraising AND skipping over the holidays
